### Study Schedule

#### Master Thesis Electrical Engineering
30 LP

#### Specialization Electrical Engineering
18 LP

#### Basic Study in Electrical Engineering
8 LP

### Elective Modules

**University of Rostock**  
**5th edition**
Content of Master Program

In the first two semesters, you select modules according to your specialization from the module catalogue, which are refined in the third semester. Finally, the fourth semester is reserved for the master thesis. In addition, there are compulsory German courses for both specializations.

Special Features

The course is offered in English language and is therefore equally suitable for English-speaking international students and for German-speaking students who want to develop and apply their English language skills.

Career Prospects

The university master’s degree in Electrical Engineering offers best possibilities for a leading or researcher position in the field of engineering in Germany and abroad or to enter a doctoral program. The ever-growing demand for engineers opens up prospects for the future with good job offers and excellent career opportunities.
